Celebrating Our 36th Year of Business

**Renaissance Charter School:** Tom Winkler, Everton Henry, and crews are erecting bridge hangers prior to installing water main and force main alongside the Summit Blvd Bridge for Harddrives. The J-D shop individually fabricated each I-beam and pedestal to compensate for an uneven bridge elevation.

**Florida Turnpike Golden Glades to Hollywood Blvd:** Stern Lashley and crew install trunk line drainage for new southbound exit ramp to Hollywood Blvd for Community Asphalt.

## Never Say Never

It amazes me how resourceful our workforce is. I am convinced that there is not one thing that our crews, shop, managers, and office staff cannot or will not do to ensure the success of every Johnson-Davis project.

At a recent superintendent/project manager meeting, I noticed everyone in the room working to help each other solve challenges including manpower, equipment, scheduling, and fabrication. The team was planning and doing what was needed to make our pro-

jects a success which ultimately make our company a success.

For the past several years, we have beat a depressed South Florida construction economy by our never-ending desire to succeed. If we continue our quest for success, I am confident that the times ahead will be better.

The return of even the smallest profit margins will allow us to improve our equipment fleet. This newer, updated fleet should also help us put these tough times behind

us.

For the first time in over four years, I feel better about the times ahead. The hard work, resourcefulness, and dedication of our employees have been the keys to our success.

I would like to thank our customers, suppliers, subcontractors, and especially every employee at Johnson-Davis for another year in business.

Have a safe and enjoyable summer!

Scott Johnson  
President

## Project Spotlight: SR 710

By: Ben Miller, Project Manager

In November 2012, Johnson-Davis began work on the SR710 project, located in Riviera Beach, Florida, as a subcontractor to Ranger Construction Industries for the Florida Department of Transportation. The overall project consists of widening 0.82 miles of Martin Luther King Boulevard from Congress Avenue east to

Chescal Ceance's crew setting a double barrel 19x30 headwall/control structure.

Australian Boulevard, including improvements north on Congress Avenue. The project is estimated to be complete in the Spring of 2014.

Johnson-Davis's scope of work consists of gravity sanitary sewer, water main, and drainage improvements. Work began on Martin Luther King

Chescal Ceance and crew setting 58x91 conflict structure for 24 inch double barrel drainage.

Boulevard with installation of the 12" water main and was soon accompanied by the installation of over 1,200 linear feet of 58"x91" elliptical reinforced concrete pipe and the associated massive drainage manholes and inlets. Work then opened up on Avenue O, Congress Avenue, Avenue S, Avenue N, and Avenue P. Commonly referred to as "Candy Land" by Superintendent Joe Bagford due to the vast amount of underground work available, the project became a work place for multiple Johnson-Davis crews, sometimes as many as five crews simultaneously.

This section of SR710 provides direct access to the Port of Palm Beach which is the fourth busiest port in Florida and the twenty-first largest in container throughput according to the American Association of Port Authorities.

Because of the Port traffic, there were restrictions to lane closures

during the day and therefore night work was required for all of the utility road crossings performed by open cut.

JJ Williamson and crew installing water main.

However, with project team coordination and cooperation it was determined that a large section of deep gravity sanitary sewer, storm drainage and water main work could be completed under a brief road closure required by the FEC to reconstruct their railroad crossing within the project. Combining four Johnson-Davis crews who committed to working both Saturday and Sunday,

Clark Cryer's crew installing double barrel 19x30s.

nine road crossings including over 400 linear feet of gravity sanitary sewer removal and replacement were completed during daytime operations. This coordinated effort provided a

safer environment for our employees and saved both time and money as it eliminated multiple nights of work that would have required sin-

gle lane road closures and restricted productions. Congratulations and thank you to all of those who contributed and participated.

Existing utilities throughout the SR710 project created the need for multiple conflict structures to accommodate both old and new utilities.

Existing drainage systems had to be isolated from the

new drainage system, existing gravity sanitary sewer had to pass through the new drainage system, and existing water mains had to pass through the new drainage system. Many of these conflicts involved large diameter pipes and therefore were designed by the engineer as cast-in-place structures. By performing field investigations and determining actual elevations of existing utilities prior to commencing, Johnson-Davis was able to have these structures precast with the help of Concrete Products of the Palm Beaches. Structures were constructed such that the bases with minimal walls fit beneath the existing utilities and do-

Backhoe Operator Kevin Maag and Skilled Laborer Charles Simms prepare to install the cut piece into the structure as three other J-D crews work in the background.

house riser sections were set above them. Most of the conflict structures also included steel casings to provide a barrier and protect the two different utilities from leaking into one another. Many of these steel

casings had to be split and fabricated to allow them to be bolted back together around the existing utilities in the field. Fabrication of all the split casings was performed by Johnson-Davis's shop personnel.

With the water main work complete and Ranger's Phase 1 roadwork nearing completion, the project is about 75% complete for Johnson-Davis. Though the majority

of work is complete and most of the major drainage installed, Phase 2 of the project will involve a significant amount of gravity sanitary sewer removal and replacement that brings with it some new challenges such as confined space work in live sanitary sewers and

maintaining the existing sewer flows with the use of floats and bypass

Chescal Ceance's crew installing 8 inch sanitary sewer.

Clark Cryer and crew installing 43x68 into a manhole.

pumping while performing our work.

To date the SR710 project has progressed well and is currently on track to be another successful pro-

ject for Johnson-Davis. Continue to prepare, plan, produce, and most importantly, be safe. Keep up the good work.

Odi Hernandez and crew installing 10 inch sanitary sewer.

Owner: FDOT

Consultant: Stantec

Prime Contractor: Ranger Construction Industries

Project Manager: Ben Miller

Superintendent: Joe Bagford

Estimator: Scott Johnson

Major Subcontractors: ABC Concrete Cutting, Allegiance Crane & Equipment, Rockline Vac Systems, MWI Corporation, Young's Communication Company

## Johnson-Davis Employee & Family Picnic

Johnson-Davis employees and families gathered at Halpatiokee Regional Park in Stuart on Saturday, February 9 for an afternoon of awards, yummy BBQ, and fun.

We began the day recognizing safety and equipment care award winners. More information on these awards and recipients is below. We also recognized 21 employees for their years of service with Johnson-Davis. Learn more about each of these employees beginning on page six.

After our raffle with over \$1000 in cash and prizes, Scott Johnson thanked everyone for their work. Scott then recognized and thanked his dad, Herb Johnson, for everything he had done to make J-D the success it is today.

The competitive "North"/"South" softball rivalry ended as employees formed mixed teams for a friendly game for all. By the pavilions we had an impromptu kickball game. There were a lot of smiles on the kids' faces as they were entertained by games,

clowns, a magician, music, and more.

Thank you to the representatives who were available to answer questions about our benefits such as our medical insurance and 401k.

Big thanks to everyone who helped make this event a success especially Gene Gardner, Kennie Hatfield, Bob Hopler, Bernie Vito, Norm Weaver, Michael Llewellyn, Larisa Ditu Pelkey, Kerry Jackson, Phil Cartales, and Edric Martin.

## Equipment Care Awards

This year Johnson-Davis introduced a new Excellence in Equipment Care Award. This award is for the operators who best demonstrate consistent care of and pride in our equipment.

Congratulations to our recipients Backhoe Operator **Alfonso Arce** and Loader Operator **Greg Pinder**. Each of them was recognized by Equipment Manager Gene Gardner with a certificate and a \$100 gift card.

Recipients were selected based on the following criteria:

- Recipient's equipment looks good regardless of job conditions, equipment age, and how long the employee has been operating that particular piece of equipment. This helps J-D portray a positive image to the community.
- Recipient provides routine care to equipment, reports discrepancies, and follows up to ensure required repairs are completed.
- Recipient has a strong sense of

### Our Excellence in Equipment Care

**Award recipients are:**

**Backhoe Operator Alfonso Arce and**

**Loader Operator Greg Pinder**

**Congratulations!**

responsibility to the equipment and provides care to the equipment as if the equipment was the recipient's own.

## Safety Awards

At our picnic, Safety Director Kennie Hatfield recognized twelve employees for their excellence in safety for the 2012 calendar year. Each employee received a certificate and \$50 gift card.

Congratulations to our recipients of

the 2012 Johnson-Davis Safety Awards:

- Foreman: Odi Hernandez
- Backhoe Operator: Kevin Maag
- Loader Operator: Greg Pinder
- Skilled: Andres Pascual
- Skilled: Jodie Kirk

- Skilled: Kenny Harp
- Backup Crew Leader: Jerry Davis
- Pipelayer: Mateo Torres Mendez
- Pipelayer: Jose Ruiz Reyes
- Yard/Drivers: Lionel Heath
- Superintendent: Joe Bagford
- Shop: Kernandy Mitchell

# Service Award Recognition

**Johnson-Davis is pleased to recognize our long-term employees for their many years of service to our organization. We know we are fortunate to have such great employees as part of the Johnson-Davis team!**

## LEONARD DENNIS

### 25 YEARS OF SERVICE

On May 2, 1988, Leonard started working at Johnson-Davis as a Laborer. Over the years he has risen to Superintendent, and he currently is responsible for the projects on the northern end of our work area and also helps Scott Johnson with bidding. Lenny does an outstanding job managing multiple jobs in multiple locations. He is available whenever needed and is very loyal to his employees. He has also developed strong relationships with many municipalities and those doing utility work in the communication sector, so much so that these organizations will request J-D for projects and request Lenny's advice about work being done by other contractors. Lenny argues for what he believes is right, even when it is an unpopular position. Thank you!

## JERRY DAVIS

### 25 YEARS OF SERVICE

Backup Crew Leader JD started at Johnson-Davis on November 30, 1988. He has held several positions with us over his many years including Mason and Foreman. Today in his Backup Crew Leader position, JD specializes in finaling jobs. He is very meticulous and has special expertise in finaling sewer and drainage work. Because of his years of expertise, he can find creative solutions to final a job in manners that meet all job requirements. JD develops good relationships with inspectors and is very conscientious and focused on safety. He is known as someone who superintendents know they can count on to get done what needs to be completed. Way to go!

## ALBERT BRISCOE

### 20 YEARS OF SERVICE

Albert was new to our industry when he started with J-D on November 10, 1993. Over the years Albert has worked his way up to be a highly experienced Tailman who is extremely

knowledgeable of the industry. He can also cover in the Pipelayer role as needed. Albert is conscientious with safety and gets along well with his crew. Congratulations on this big milestone, and thank you for your 20 years of service.

## PHILIP CUPPLES

### 20 YEARS OF SERVICE

When Phil started at J-D on February 10, 1993, he already had many years of experience repairing and overhauling equipment and plants. During his time with us, he has established a reputation as reliable, highly trustworthy, and solid all-around good mechanic. His specialty work includes wellpoint pumps, engine rebuilds, hydraulic pumps, heavy tractors, and machine hydraulics. Phil is a role model for excellent productivity and demonstrates a high sense of responsibility. We are glad he is on our team!

## SERGIO D FILIPONE

### 15 YEARS OF SERVICE

Sergio started at J-D on October 6, 1998, as a Laborer. Over the years, he has advanced to be an Operator, Pipelayer, and Foreman. Currently Sergio functions as a Backup Crew Leader, and he is also taking on managerial roles often handled by foremen and superintendents on other projects. For example he takes care of finaling, subcontractor management, and inspection scheduling. He is a talented equipment operator and also covers as a Mainline Foreman when needed. Sergio's father, also named Sergio, works at J-D as a Welder, Sock Machine Operator, and Driver.

#### **MANUEL HERNANDEZ**

##### **15 YEARS OF SERVICE**

Originally hired by Johnson-Davis on June 11, 1998, as a Laborer, Manuel can now successfully perform the roles of Tailman, Pipelayer, and Mason. Manuel is very reliable, a hard worker, and works well independently. He cares about his job, takes pride in his work, and focuses on delivering a quality product. He is an all-around good team player, and foremen enjoy Manuel on their crews. Currently he primarily functions as an outstanding Mason, but he fills other roles as needed. Way to go, Manuel!

#### **KERRY JACKSON**

##### **15 YEARS OF SERVICE**

When Kerry joined J-D on May 4, 1998, as a Foreman Trainee/Operator, he brought with him many years of experience as a Pipelayer and Equipment Operator. He was quickly promoted to Foreman, and currently he holds the position of Superintendent. Kerry is very knowledgeable, handles himself well with others, and is very self motivated. His proven success running large jobs without assistance led him to recently being selected as the sole superintendent on one of J-D's largest jobs ever. Kerry managed the project extremely well, and everyone knew to expect nothing less!

#### **RHONDA MILLER**

##### **15 YEARS OF SERVICE**

When Rhonda joined J-D on October 6, 1998, she brought over twenty years of accounting experience including accounts payable, accounts receivable, and payroll. At J-D, she has headed up our Accounts Payable where she ensures our subcontractors and vendors are paid timely. She also has processed our payroll. Lately, she has also been handling many special projects. When not in the office, Rhonda enjoys spending time with her family, especially her grandchildren. Thanks, Rhonda!

#### **DONALD MYERS**

##### **15 YEARS OF SERVICE**

Don was hired on March 11, 1998, as a Backhoe Operator. Prior to working at J-D, Don lived in New York where he was a foreman and a heavy equipment operator. He is skilled running all types of equipment. His many years of experience are of great benefit to his crew. Don is reliable and has historically been a "go-to" guy. He can handle all types of operator work including sheeting. Thanks, Don, for your service.

#### **JOSE RUIZ REYES**

##### **15 YEARS OF SERVICE**

Congratulations to Jose who is celebrating 15 years of service with Johnson-Davis. He started with us on September 24, 1998, as a Laborer, and he quickly worked his way up to become a very talented Pipelayer. He gets along well with everyone and is highly dependable. Jose pays attention to detail, and is an all-around good employee. Jose's son, Luis Ruiz, has joined the business and is a Laborer for Johnson-Davis. Thank you for your service!

## Service Award Recognition continued

### KERNANDY MITCHELL

#### 10 YEARS OF SERVICE

On August 4, 2003, J-D hired Kernandy. While officially a Field Mechanic, our crews refer to Kernandy as their "fireman". He is very knowledgeable, excels with troubleshooting, and "rescues" crews when he shows up on their jobs. Kernandy is a good all-around mechanic. He is also a good welder/fabricator which allows him to do field welding. Kernandy is very reliable and has great rapport with field crews. Way to go!

### SANTOS ARCE

#### 5 YEARS OF SERVICE

Since starting at J-D on July 21, 2008, Santos has established himself as one of our best Pipelayers. He is extremely knowledgeable, a hard worker, and is very pleasant. He is a great leader and demonstrates outstanding teamwork. You know you'll succeed when Santos is on your crew! Two of his brothers also work at J-D: Backhoe Operator Alfonso and Backup Crew Leader Lenny.

### JUAN BARRAGAN OCEGUERA

#### 5 YEARS OF SERVICE

Juan started with J-D on March 11, 2008, as a Laborer, and today he can successfully perform the Tailman, Hillman, and Mason positions as needed. He is very focused on safety and shows up each day with a great attitude and ready for the day's challenges. Thank you, Juan, for everything that you do, and congratulations on your five years of service!

### JESUS M GARCIA GUERRERO

#### 5 YEARS OF SERVICE

Since March 3, 2008, Martin has performed the Skilled Laborer, Mason, Tailman, and Loader Operator roles for Johnson-Davis. He is a hard worker, upbeat, and willing to help anyone. He strives to provide a quality product to our customers, and his work ethic sets a good example to those around him. Thank you, Martin!

### KENNIE HATFIELD

#### 5 YEARS OF SERVICE

Kennie was hired on February 4, 2008, and he brought with him over 20 years of construction safety management experience. As our Safety Director, some of Kennie's responsibilities include safety inspections, property and general liability claims, and accident/incident investigation. Kennie's expertise helps support and guide our field crews. Thanks Kennie!

### DOUGLAS IPOLITO

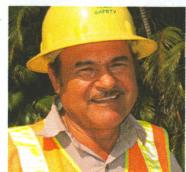

#### 5 YEARS OF SERVICE

Doug started with J-D on October 27, 2008. He earned his Civil Engineering degree and is our Project Manager who heads up the majority of our FDOT projects. Doug's eagerness to learn, personality, and work ethic have made him a valuable manager and "go to" person for difficult projects. He works well with coworkers, project owners, and agencies and is a pleasure to have on the J-D team.

**THOMAS LINSLEY****5 YEARS OF SERVICE**

Since October 27, 2008, Foreman Tom has demonstrated great commitment to J-D and pride in his work. He is very talented on all equipment, has a great eye for grading canal banks and slopes, and has grown into a versatile foreman. He looks ahead to what needs to be done, presents solutions instead of problems, and keeps excellent job records. Thanks!

**JOSE E MEZA MOZQUEDA****5 YEARS OF SERVICE**

“Papa” has worked at Johnson-Davis since October 6, 2008, as a Skilled Laborer. He cares about quality, and he is a dependable, hard worker.

Papa is a team player who works very well with his crew. Papa has two sons who also work at J-D. Son Jose L is a Backhoe Operator, and son Jose A has been both a Skilled Laborer and Tailman for J-D.

**JOSE L MEZA RODRIGUEZ****5 YEARS OF SERVICE**

Since starting with us on June 17, 2008, Jose has been a Backhoe Operator. He is a talented operator who also takes good care of his equipment. Jose has family working at J-D. His brother Jose A has been a Skilled Laborer and Tailman for us, and his father Jose E “Papa” is a Skilled Laborer also being recognized for five years of service. Congratulations Jose!

**MICHAEL PETTY****5 YEARS OF SERVICE**

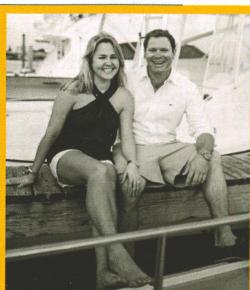

Congratulations to Foreman **Clark Cryer** and **Meredith Johnson** on their June 2013 wedding. We wish you a wonderful future together! Best wishes also go to Meredith’s father **Scott**, uncle **Chris**, and grandfather **Herb**.

Mike has been our Machinist since September 3, 2008. He is very talented at machining needed parts, repairing wellpoint vacuum pump systems, and line-boring to refurbish pins and bushing areas. He is creative and precise, and everyone knows of his passion for classic car and race boat restoration and mini-boat racing.

**DILLARD THOMAS WINKLER****5 YEARS OF SERVICE**

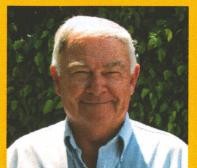

Tom had decades of Foreman and Superintendent experience prior to starting with J-D on January 14, 2008. He is tremendously knowledgeable and talented in many construction areas. Tom understands the engineering aspects of carpentry work. He can look at a detailed plan of a field pour and build it. Prior to construction he can identify items that cannot be constructed as originally planned and identify alternate solutions for inspector approval. Tom recently semi-retired but already has graciously come out of “retirement” to assist J-D.

## Employee Spotlight

Congratulations to Foreman **Clark Cryer** and **Meredith Johnson** on their June 2013 wedding. We wish you a wonderful future together! Best wishes also go to Meredith’s father **Scott**, uncle **Chris**, and grandfather **Herb**.

Happy retirement and wishes for good golfing weather go to **Bob Spink** who is retiring after over 35 years with J-D. He was our company’s first Foreman and has since held the Superintendent, Project Manager, and Vice President roles. His legacy will remain through all he has mentored over the years. It is hard imagining J-D without Bob!

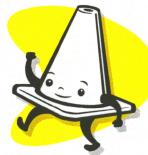

## Safety Scoop

Congratulations to the entire Johnson-Davis team for your excellent work regarding safety. We worked almost 342,000 man hours with six recordable injuries and no lost time in 2012.

As a result of your efforts, J-D was recognized with two great safety awards.

We were presented with an Award of

Excellence for worker safety by the Safety Council of Palm Beach County. This is the fifth consecutive year that we have earned this award.

In addition, J-D was recognized by Amerisure for working 800 days without a lost time injury. We are now over 900 days.

## In the Press

A Palm Beach Post article mentioned our installation of dewatering systems for Troy Construction to assist with the installation of a 24 inch pipeline for FPL.

## 2013 Johnson-Davis Inc. Scholarship Recipients

Johnson-Davis is proud to support our employees' dependents as they pursue advanced education. We are proud to recognize the student recipients of the Johnson-Davis Scholarship as well as their families.

Award winner **Lianna Llewellyn** is the daughter of Shop Manager **Michael Llewellyn**. Lianna previously won this award in 2011.

Lianna is studying Biomedical Engineering at Harvard University with the goal of becoming a

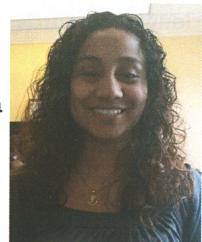

pediatrician. She wants to be fluent in Spanish so she can serve both English and Spanish speaking patients, and as such is also working towards a foreign language citation in Spanish.

Lianna is a member of the Bach Society Orchestra as a violinist and social chair. She also volunteers in the community and was recognized for Above and Beyond Excellence in Mentoring from Strong Women Strong Girls.

Award winner **Olinpia Arce** is the daughter of Backhoe Operator **Alfonso Arce** and niece of Pipelayer **Santos Arce** and Backup Crew Leader **Lenny Arce Urieta**. Olinpia previ-

ously won this award in both 2011 and 2012.

Olinpia is working towards her Criminal Justice degree at Palm Beach State College. Ultimately she intends to work in a specialized unit with the Palm Beach County Sheriff's Office.

In addition to being a full-time student and volunteering in the community, Olinpia also is a full-time employee. She works for a criminal defense attorney and supports all aspects of the practice.

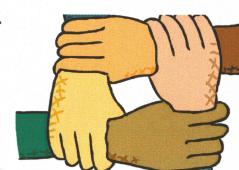

## EEO

Johnson-Davis Inc. is an equal opportunity employer committed to equal opportunity laws. We will not discriminate against protected groups as applicants or employees, and we take affirmative action to ensure equal opportunity for qualified personnel. We seek employee referrals of prospective hires.

We expect employees to bring forward any issues they might experience in the workplace so we can address them and ensure J-D continues to be a great place to work.

\*\*\*\*\*

Dragados USA recognized J-D for our

cooperation in achieving On-The-Job Training Graduates for the I-595 corridor Roadway Improvement project. Thanks to our many foremen and Superintendent **Kerry Jackson** for each of your efforts investing in our employees.

## Kudos Korner

The following employees are being recognized for their recent promotions:

- Clark Cryer to Foreman
- Jasper Harp to Tailman
- Jodie Kirk to Pipelayer
- Isabel Martinez to Tailman
- Peter Newman to Backhoe Operator
- Jerry Philbrick to Foreman Trainee
- Bronco Pryor to Foreman

Way to go!

\*\*\*\*\*  
Superintendent **Joe Bagford**, Project Manager **Walter Pfaffenberger**, and Foreman **Bronco Pryor** and their crews received kudos from the Town of Jupiter Utilities Department for work on the Little Club Water System Improvements project. Our team

was recognized for delivering through unique challenges. The Town's Assistant Director of Utilities said "The quality of work that your team has provided on this project... has been excellent. It has been a pleasure working with such a professional group of individuals and a construction company committed to quality." Thank you to everyone involved for your hard work!

\*\*\*\*\*  
Good job and congratulations go to Skilled Laborer **Aniel Phanor** for successfully completing FDOT approved on-the-job training for the Grade Checker classification!

\*\*\*\*\*  
Big congrats go to Accounts Receivable Manager **Larisa Ditu Pelkey** who quit her tobacco use in August 2012! What an accomplishment!

\*\*\*\*\*

Congratulations to Foreman **Clark Cryer**, Safety Director **Kennie Hatfield**, and Superintendent **Edric Martin** for successfully completing training on basic rigging principles and load control.

\*\*\*\*\*  
We need to recognize the good work of Foreman **Fausto Rodriguez** and his crew, Superintendent **Norm Weaver**, and Project Manager **Brendan Twomey** for their work at 61st Street North /120th Avenue North for the Palm Beach County Water Utilities District. Johnson-Davis was called "one of the best run construction firms I have seen in a long time". Thank you to those who worked on this project and represented us so well!
